Teesside MBA develops rigorous thinking skills and entrepreneurial leadership

Professor Paul Crony, Vice-Chancellor, Teesside University

Teesside University MBA

Teesside University Business School has a rich and deeply embedded culture of innovation and enterprise where academic theory is explored through real-world examples within a supportive but challenging learning environment. Business School develops leaders with the skills, knowledge and mindset to make a real, practical difference to peoples' lives and success of the businesses and economies.

Teesside University MBA is an internationally recognised qualification and is designed to provide knowledge, necessary skills and understanding to face challenges in the modern organisation. The programme offers an exciting and well balanced integrated curriculum that places a large emphasis on the application of knowledge in the organisational setting. Learners will develop their personal, professional, critical thinking and reflective skills in order to prepare them to manage, lead and transform their organisations and make a positive difference to their personal performance and society more generally.

Programme Overview

On completion of the MBA, you will:

- Think and act entrepreneurially to lead through uncertain and rapidly changing conditions in the global business environment.
- Possess a deep understanding of the functions of business and appreciate the importance of functional collaboration to achieve goals.
- Be responsible leaders who are able to work with a diverse range of teams, in a variety of cultural contexts.
- Be self-reflective practitioners with awareness of their self-identity and values.
- Be international in their outlook and understand the challenges and opportunities the global business environment presents businesses.
- Understand the importance of the role of business in society.

Teesside MBA gave me confidence to perform out of my comfort zone and vital skills for critical thinking and leadership
